First line
Break before
Break after
No effect (should be top of 3rd page, using css or specify).
Legacy (should create a break after).

No effect (should be top of 2nd page, using legacy).

Big element (should start on new page, using avoid-all/css/specify).

No effect (should start on next page *only* using avoid-all).
No effect (for spacing).
Full-page element (should start on new page using avoid-all/css/specify).

No effect (should start on next page *only* using avoid-all).
No effect (for spacing).
Full-page element (should start on new page using avoid-all/css/specify).

No effect (for spacing).

Even bigger element (should continue normally, because it's more than a page).

No effect inside parent div (testing avoid-all - no break yet because parent is more than a page).

Big element inside parent div (testing avoid-all - should have break before this).

Cell 1-1 - start of new page (avoid-all only)	Cell 1-2 - start of new page (avoid-all only)
Cell 2-1 - start of another new page (avoid-all only)	Cell 2-2 - start of another new page (avoid-all only)
